

ARCHAEOLOGICAL
SERVICES
WYAS

Landscape Survey

Archaeological Services provide all levels of landscape survey, from rapid walkover assessments to detailed topographic surveys.

You will benefit from the skills of our highly experienced surveyors, who use the latest surveying technology combined with in-depth interpretation and analysis.

Landscape Survey services include:

- Survey grade GPS survey (cm accuracy)
- Total Station survey
- Walkover survey using mapping grade GPS (2m accuracy)
- GIS analysis of results
- Hachure plans
- Digital Terrain Modelling
- Detailed interpretative and analytical reports

Survey data will be provided digitally in AutoCAD and GIS compatible formats to seamlessly integrate with other site plans.

All work is compliant with English Heritage guidelines for landscape survey and investigation.
